TUESDAY, JULY 29, 1873.

LOCAL MATTER.

E. C. WOODSON, City Editor.

MORNING EDITION.

FOR HOUSE OF REPRESENTATIVES.

GEORGE H. SNOW,

OF WAKE.

ELECTION 1st THURSDAY IN AUGUST.

TICKETS—TICKETS!—We will furnish tickets for the election upon the Constitutional Amendments for FIFTY CENTS PER THOUSAND, the single tickets containing the words "for" or "against" the amendment. The cash must accompany the orders.

LOCAL BRIEFS.

The Supreme Court adjourned yesterday.

W. F. Askew and family are at Allghany Springs, Va.

Geo. Baker, Esq., of the Franklin Courier, honored our sanctum yesterday.

The various churches in the city were well attended on Sunday, although quite a number of our people went to Cary.

D. S. Hudgins, ticket agent and telegraph operator of the Raleigh & Gaston Railroad, recently wrote 695 words on a postal card. Each word was plainly and well written.

"We will bet our money on the bob-tail horse, who will bet on the bay?" We hear through our sporting medium that there will be a quarter race on the road near the old Fair Grounds to-day.

Two Senegambians indulged in a little fist-fight on a Wilmington street near the market house yesterday, and fought it out on that line. No police to interfere, and the sport was fine.

We are glad to see that at last we have prevailed upon the proprietors of the Raleigh & Gaston Railroad to clean the streets and squares of the filth, &c. The hogs have all been turned loose to devour it. Good.

Peter E. Smith, Esq., of Scotland Neck, advertisement, as agent for North Carolina and Virginia, those excellent Excelsior Cotton Gins. We direct the attention of farmers to the advertisement, which will be found in another column.

We saw yesterday on the street a dashing, new turn-out, in the shape of a lightning rod wagon, with Capt. W. C. Parker, of this city, as the driver. He starts out in a day or two to Granville, Warren, and Mecklenburg, Va. We are glad to learn that he is leading all other agents in this business, and is said to be the right man in the right place as an agent.

SUPREME COURT DECISIONS.—On yesterday, previous to adjournment, the Supreme Court filed the following decisions:

John A. Gilmer, Ex'r., vs. Nancy McNairy, from Guilford. No error. Affirmed.

By READE, J.

James Jones vs. Milly M. Fortune et al., from Henderson. Error.

T. J. Jones vs. Com. of Bladen county, from Cumberland. No error. Affirmed.

By ROMAN, J.

State vs. B. S. Davis, from Northampton. Affirmed.

W. F. Lewis, Ex'r., vs. G. W. Johnson, Adm'r., from Pitt. Re-hearing refused.

Admiralty cases were taken in the following cases:

Board of Commissioners of Catawba county vs. George Setzer, from Catawba.

George H. Page, to use, &c., vs. Daniel Carpenter, from Craven.

State on rel. Howell et al. vs. Tate et al., from Rowan.

State of North Carolina vs. the Richmond & Danville Railroad Company, from Wake.

W. H. Brother et al. vs. Commissioners of Currituck county et al., from Currituck.

C. F. Lowe et al. vs. Board of Commissioners of Davidson county, from Davidson.

Henry Reiger vs. Commissioners of the Town of Beaufort, from Carteret.

MAYOR'S COURT.—Stanford Cole, a member of the city police force, was brought before his honor yesterday, charged with the theft of a pocket book and contents, the property of Coroner Maginn. The trial elicited a great deal of interest judging from the densely packed court room. Mr. Chas. M. Bussard appeared for the prosecution and Messrs. Jones & Jones for the defendant. Several witnesses examined and argument made by the counsel.

The Mayor was of the opinion that the evidence was sufficiently strong to authorize him in binding the policeman over to the Superior Court in the sum of \$200.

REV. BURWELL TEMPLE.—Our announcement of the demise of this aged and good man as taking place on Thursday was premature, being led into the mistake by incorrect information. The sad occurrence did not transpire until Sunday. The remains will be interred at the family burial ground, seven miles east of this city. Friends and acquaintances of the family are invited to attend.

DISSOLUTION AND AUCTION.—See notice in another column of the dissolution of the firm of Primrose, Petty & Newsum. They will on and after Thursday sell at public auction and private sale the remainder of the stock of goods on hand. Go there and get bargains.

THE DAILY NEWS.

VOL. II.

RALEIGH, N. C. TUESDAY MORNING, JULY 29 1873.

NO. 132.

THE VIENNA EXHIBITION.—EXTRACTS FROM A LETTER BY COL. W. H. H. TUCKER FOR THE DAILY NEWS.—Since my last to you from Paris, in my opinion the Great City of the world, I have visited Geneva, Interlochen and Berne in Switzerland. The country here is beautiful and far beyond my powers of description. Its mountains, glaciers, vineyards, valleys, on whose plain roam flocks of sheep and herds, forms, as history says it does, the grandest scenery in the world. At Interlochen I saw the young Prince Napoleon, a lad of about eighteen summers, and in appearance tolerably good looking. He is spending the summer in Switzerland, being prevented at present from visiting France.

After visiting the great watch and jewelry manufactures, at Geneva, I took a "diligence," which is a large "bus," capable of seating about thirty persons, and drove to the valley of Charnomay. Here I saw the top of the highest mountain in Europe, Mount Blanc, 15,840 feet high, and is surrounded by enormous glaciers and fields of snow. For miles around you can see snow-capped mountains. The scenery, composed of cascades, glaciers, immense rocks, steep precipices and lovely landscapes, is superbly grand.

On Sunday morning I went out early and saw the sun rise as bright as gold on its ice-chilled top. And as the glorious orb of day arose from his pure white couch of snow, and shed his mellow rays of light on the wide, wide world beyond, I felt almost enraptured, and stood in wonder and awe at the magnificent spectacle before me. Turning to the valley below, it appeared dark, and as yet before the dawn of day, the earth was as a velvety green carpet spread out before me. I may never see the like again. Who, after viewing such a spectacle, could say there is no Creator—there is no God? You are aware that it is only occasionally that tourists have such a fine opportunity of seeing clear sunrise, as the summit of Mount Blanc is generally concealed by mist and clouds.

After spending about a week in this beautiful country of green valleys, fine scenery, and last of all, but not least, beautiful Swiss girls, and where wine is only 20 cents per bottle, I left for Vienna, which point I reached on the eve of July 2nd.

I forgot to mention that I spent two days, very pleasantly, in the old town of Munich, where is located the foundry of M. Miller, where skilled artists, from all countries, have cast their brazen monuments and statues.

VIENNA.

I find Vienna a second Paris as regards fashion, morals, style of living, its beer gardens, &c., &c.

It is a beautiful city, well laid out, elegantly built houses, beautiful gardens and everything to please the eye or gratify the appetite. The opera house is the largest and finest I have seen. The ballet dancing and rich costumes of the ballet girls are superior to those of Paris or anywhere else.

In regard to the exhibition and the buildings, I am at a loss to know where to begin and where to end, for in an ordinary letter it is almost impossible to give even a faint idea. Every nation of the world is represented here, and the buildings are adequate. I have spent three days and have averaged a walk of eight or ten miles each day in the buildings, and have seen a small part of what is here. It will require weeks to see all. Our country is the only one that is not well represented. I must say, much to her discredit. I am almost ashamed of my own nationality here.

My first day's walk was through the departments of England, Scotland, Ireland, France, Belgium and Holland; my second day was passed in the departments allotted to Switzerland, North and South Germany, (which embraces all the German country,) Austria and Prussia. I had no idea that Austria manufactured so much fine silk, satin and woolen goods. She is equal in these productions to France or England.

The third day was devoted to the department of Italy, Spain and Portugal, and to-day, the fourth, will inspect the department of Russia, Denmark, Norway, Sweden and the United States of America. The last named country will occupy but a short time. I have seen a great deal of the manufacturing of goods in every branch of fine cloths, cassimeres, blankets, shawls, silks, satins, laces, edgings and embroidery generally—all that is made, either by hand or machine, from the tiny thread of silk as it is taken from the silk worm through all its modes until it is woven into silk. I have left my order for certain styles of goods in connection with a large importing house of New York city in many of the principal manufacturing towns of Europe, and hope this fall to give my customers the benefit of my selections and importations.

The 5th day I will take up the departments of India, Turkey, Brazil, China, Japan and the Arabs. In the exhibition building you can see almost any article which is made or used. Ice making machines, glass cutting, agricultural implements, &c., and thousands of other useful inventions. The diamonds, jewelry and precious stones on exhibition are estimated to be worth twenty millions of dollars, and are of great splendor.

The confectionery department is indescribable, particularly that which is contributed by Austria—mountains of candies and confectioneries of all conceivable shapes and styles. In the department of the U. S. A. I saw a beautiful case of boots and shoes, put on exhibition by our old friend "Burt," of New York, who by the way I met in Interlochen, on his way back to the States. He will take the premium on boots and shoes, as he makes the best, and has the best assortment here. Our townsman, Mr. Gayle, has a very useful machine here also on exhibition. Prof. Kerr has not yet arrived, though he will have room for all he will bring, as I have engaged from Mr. Thomas M. Elvath, the manager, a sufficient number of feet in the building for him. I am afraid he will reach here too late, as

the jury have passed upon most of the minerals, metals, &c., but may be induced to examine ours, if Prof. Kerr reaches here in a few days. Though I heard to-day that the exhibition would be continued many months.

Baron Schwartz, the principle manager of the exhibition, was paralyzed to-day at the soda fountain of Joseph G. Heister, formerly from Raleigh, N. C., who by the by, is doing a driving business in soda and other waters.

The exhibition buildings cover about a square mile of ground, with long rows of buildings for agriculture and mechanical implements, machinery, &c. The whole affair is on the grandest scale, and in my opinion no other country will ever surpass its arrangements.

There is one matter that strikes me forcibly, which is the great security to persons. The police regulations here are so good, and withal so strict, that one feels absolutely safe as to life when compared to other countries, particularly our own. I have less personal fear of my life here, though a stranger, than I would in many Northern cities.

Beer drinking in the Northern drink here, and the number of beer gardens is innumerable. Our old friend Frappa's establishment is "some" in its way and locality, but is nowhere here. Everybody, the old, the young, the rich, the poor, male and female, drink beer here, and make it a business.

The Germans are as happy a people as can be under an Empire and an Emperor, but after all give me my country and my people.

I saw the other day Francis Joseph and the Empress and the Queen of Prussia, (old King William's wife.) I had the sight also of Madam Isabelle, ex-Queen of Spain. She is an old scow, and weighs about one ton.

I neglected to say that up to the present time but two Southern States are represented here, viz: Alabama and Louisiana.

Our government appropriated about \$200,000 for this Fair, but I have looked in vain to find where the money had been spent and to what, and nearly all I can find is an old log house called "America," the thread quarters of the Commission. I would not give more than \$75,000 for everything on exhibition by our government. It is too bad. I am under special obligations to Gov. Caldwell for his commission as a representative of North Carolina, as it secures me many privileges and rights which I could not otherwise obtain.

The dinner gotten up by the Americans, on the 4th inst., was a very successful affair. The reception given by the Emperor, on the evening of the 4th, was also a splendid affair, of which I will write more hereafter.

Proceedings of the Raleigh District conference of the M. E. Church, South, held at Cary, N. C., July 26th, 1873.

THIRD DAY'S PROCEEDINGS.

[By our Special Reporter.]

At 9 o'clock, Conference was opened with religious worship by Rev. Mr. A. B. Boshamier, of Henderson.

Much important business engaged the body during the morning session.

Reports were submitted on Sabbath schools, Temperance, Church Literature and Education. The North Carolina Advocate was heartily endorsed and highly gratifying and encouraging remarks upon its management was made by Rev. E. A. Yates, Rev. L. L. Henderson, Rev. R. H. Whitaker and Rev. A. W. Mangum. Pending the consideration of the Educational Report, the hour for service having arrived, the Conference adjourned till 3 o'clock p. m. to listen to an earnest evangelistic discourse, by Rev. J. P. Moore, P. E. of the Hillsboro District.

At 3 p. m. the regular business was resumed, and enthusiastic interest aroused. On the subject of Greensboro Female College, addresses were delivered by Rev. L. L. Henderson and Rev. A. W. Mangum. Speeches were made on Trinity College by Rev. B. B. Cuthbert and Dr. Closs. Due reference was also made to Davenport Female College. A seminar for the education of girls, being about to open in the large, handsome building at Cary, approving notice was taken of the enterprise, and it was cordially commended to public patronage. It is to be under the Superintendency of Rev. Jesse H. Page and Mrs. V. C. Pell, widow of the late Wm. E. Pell.

Favorable notice was given to the schools of Rev. Mr. Trawick, in Raleigh, and M. S. Davis, Esq., of Louisville.

A resolution was adopted condemning the custom of horse-racing and gambling by railing, &c., at Fair.

A fraternal greeting was sent to the Wesleyan and other English immigrants about to colonize within the District. Franklinton was selected as the place for the next District Conference. The body adjourned sine die at about 6 p. m.

Rev. Mr. Yates preached an impressive sermon at night.

Sunday morning a Sabbath School meeting was held and addressed by Revs. A. W. Mangum, E. A. Yates and J. P. Moore.

At 11 o'clock Dr. Closs preached to a vast audience, at the close of which service, the Holy Communion was administered.

At 3 p. m. Rev. Mr. Henderson occupied the pulpit, and at night Rev. Mr. Caldwell preached. After the sermon some exhortations were presented and a call for penitents made, when a number came forward to seek pardon from Heaven and begin the earnest service of God. The scene was exceedingly solemn and inspiring. The meeting is to be continued.

Most of the visitors, delegates and ministers had left the beautiful village by noon on Monday.

PEACHES AND APPLES WANTED.—Messrs. Marshall P. Smith & Co., advertise in another column this morning that they will pay the highest cash prices for peaches and apples at their drying establishment at Ridgeway, N. C.

PERSONAL.—Col. J. M. Heck and family left yesterday for Canada, J. P. Guiley for Alleghany Springs, Va., and Peter Pescud, Jr., and sister for Nag's Head.

SOMETHING NEW.—There is a railroad in operation in this State that is not down on any of our maps; no mention has ever been made of it in any newspaper, and even the citizens of the town on one end of the line did not know the building was going on until they saw the workmen entering the town laying down the track.

This new railroad is a tram road, and runs from Edwards' Ferry, on the Roanoke, to the enterprising little town of Scotland Neck, in Halifax county. A charter was granted the Weldon and Scotland Neck Transportation Company by the Legislature of 1869, at which time the road was graded for a regular iron rail, but by some means was not completed.

When the Scotland Neck & Halifax Railroad was rejected by a vote of the people a short time since. Mr. W. H. Smith, of Scotland Neck, the largest stockholder in the old chartered road, took it upon himself to build him a tram road, using only his own hands and saying nothing even to his neighbors of his intention.

In a short time he will have the road complete with an engine and cars on it, and his freight on cotton along this fall will doubtless pay him for his work.

As the map man says, this is what we call progress, and if North Carolina had a few more Scotland Neck Billy Smiths what a country we would be.

The original intent of the corporation of the road was to establish this line of railway from Roanoke, to a few miles west of Scotland Neck, to Edwards' Ferry, where close connection would be made by boats to Weldon, thus securing an outlet for the immense amount of produce raised in this rich section. The tram road of Mr. Smith fills this bill, and we congratulate our Scotland Neck friends on their success in getting a road.

LOCKVILLE ITEMS.—The largest of the three locks now in process of reconstruction will be finished this week, when the steamer Lobdell will be hoisted to the canal which leads to the dam above the town. The lock is thirty feet in length instead of twenty-eight, as formerly proposed by us.

It is believed that work on the new freight warehouse of the Raleigh & Augusta Air-line Railroad will commence in a few days.

The Lockville Male Academy is now a fixed fact. The site has been selected and the contract for the building will be given out this week.

A Sunday School was organized here on last Sabbath. The opening exercises were conducted by Mr. Edgar, of the Lockville Mining and Manufacturing Company, first by examining all present, both old and young, on the Bible. The first question asked stumped the whole school. We had a near seat, did not participate, but we were stumped notwithstanding. The question was: What was the occupation of St. Matthew when Christ found him? The answer was: A tax collector. We sat for several minutes in silent meditation upon the great changes that have been wrought in Matthew's occupation since he left the business.

A much needed and refreshing rain fell Sunday evening, which settled the question of good crops in this section.

Some little excitement was created here Sunday morning by the report that a gentleman from the neighborhood was missing from home, and apprehensions feared of his being foully dealt with. A party went out in search and soon found him sick in the road, where he had been all night unable to get to his house.

From the Belleville Daily Intelligencer, we see that A. D. Jenkins, of this city, is on a visit to Dr. Palmer, of that city.

Dr. Chas. E. Johnson, of this city, has been spending two months at the Virginia Springs, and we are glad to learn that his health is rapidly improving.

Col. J. M. Heck and family left for the Virginia Springs yesterday morning. Also Miss Sue Pescud on the same train.

Payton E. Brown and John Baskerville, Esqs., who have been seriously ill with typhoid fever are improving.

ANOTHER PAPER SUE FOR LIBEL.—We learn that R. H. Griffin, formerly of the firm of Griffin & Hoffman, Advertising Agents, Baltimore, has commenced suit in the U. S. Circuit Court of this State against W. H. Bernard, Proprietor of the Wilmington Star, for libel. We do not know Mr. Griffin's cause for complaint, and only give the above as an item of news.

STATE OF THE THERMOMETER.—The Thermometer yesterday was as follows at Branson's Book Store:

At 9 a. m. 80
At 12 m. 84
At 3 p. m. 87
At 6 p. m. 83

HOMESTEADS.—We call especial attention to the auction sale of lots at the old Fair grounds to-day. People in moderate circumstances now find it to their interest to buy and put up a house, even if a small one, rather than pay exorbitant rents.

NEW ADVERTISEMENTS.

WANTED AT THE FRUIT DRYING ESTABLISHMENT RIDGEWAY, N. C.

We wish to purchase PEACHES and APPLES, and will pay cash for the same, large or small lots, delivered at any station on the Raleigh & Gaston Railroad.

Parties having orchards or fruit to sell are invited to address the undersigned, stating quantities they can supply and time of delivery.

MARSHALL P. SMITH & CO., Ridgeway, Warren Co., N. C.

MORGAN'S SAPHOLIO FOR THE MOORE, July 29-2w

W. C. STONACH.

TELEGRAPHIC NEWS.

NOON DISPATCHES.

Miscellaneous Items.

INDIANAPOLIS, July 28.—There were three fatal cases of cholera in one family. No other fatal cases reported.

LOUISVILLE, July 28.—The tobacco crops in Eastern and Central Kentucky are favorable. In Western Kentucky the crop is damaged by droughts. Hemp looks badly. Fruit is greatly damaged by the late frost. Cholera has appeared in Lagrange, where there were two deaths on Saturday and three on Sunday. Medical assistance is called for.

CUMBERLAND, Md., July 27.—Early this morning Engineer Conway, on the Baltimore & Ohio Railroad, lost control of his engine, on a down grade two miles east of Allamont, 45 miles west of here, when the engine ran away, and while running over forty miles an hour, struck the rear freight train, demolishing twenty cars loaded with corn, cotton and tobacco from the west, scattering contents of the cars all over the track. Engineer Conway and two men, Martin and Elliott, drivers from Barbours and Harrison counties, West Virginia, were killed. T. Burke, conductor, and E. Cornery, brakeman, both of Piedmont, and a driver named Reynolds, were badly injured. This is probably the most terrible wreck which ever occurred on the Baltimore & Ohio Railroad. Trains were delayed to-day, but are now running as usual.

BAXTER, ME., July 28.—Two spans of the bridge between Old Town and Milford were blown away by a tornado while the engine and tender, with five men, were passing. The engineer was killed.

MEMPHIS, July 28.—Frank Moore, a well known citizen, was killed at 3 o'clock this morning in his room in the presence of his wife, it is supposed by burglars.

St. Louis, July 28.—By a storm in Macon City, Missouri, the Masonic Temple and other buildings were partially destroyed, and three men killed. Judge Henry was severely injured.

New York News.

NEW YORK, July 28.—A woman with an illegitimate child were drowned in East river because the father refused to support them.

A party going to the prize fight, which the police prevented, fought in a sail boat, capsizing her. Two were drowned.

Carl Vogt, said from surrender to the Prussian Government by the decision of Attorney General Williams, emphatically denies he is the murderer of Chevalier D. Bismarck and explains his possession of bank notes and other securities, which the Chevalier's relatives claim, by saying he received them from a woman known here as Mrs. Vogt, who bought them in London from a German. This woman is now earning a livelihood by scrubbing law offices in the city, while the lawyers are fighting for a hundred thousand dollars worth of securities, which she handed over to them after Vogt's arrest to pay the expenses of his defence.

The Manitoba Court refuses bail to Lord Gordon's kidnappers.

Another Carlist Triumph.

BATONNE, July 28.—A fight occurred near Pampelona, in which the Carlists were successful, capturing two guns and three hundred prisoners.

Pardons Recommended.

WASHINGTON, July 28.—Pardons are recommended for the following kulkus: Felix Doer, Stephen Spaw, Evans Murphy, Wm. Scruggs, convicted in North and South Carolina.

MIDNIGHT DISPATCHES.

New York.—Fire.—Habes Corpus Case Carl Vogt—An Important Guano Suit.

NEW YORK, July 28.—The fire in the 23rd street and Broadway stage stables originated in the hay loft through the carelessness of an employee, who took the light up there. The building was damaged to the extent of \$50,000. Insured for \$75,000. The stock was damaged \$30,000; no insurance. The 4th floor was occupied by the 50th regiment as an armory. Loss to the regiment is about \$30,000. Suits to be insured.

In the Supreme Court at Chambers, Judge Pratt, reserved his decision in the habeas corpus case of three young men who has been detained as witnesses in the Stokes case.

The counsel for Carl Vogt received a letter from the Secretary of State stating that the case is still under consideration by the State department.

The Peruvian Government is about to institute suits for alleged frauds in the sale of imported guano, against five Water street firms engaged in that business. The bill of complaints which is very voluminous and charges the refilling of old bags which have contained genuine, and so branded and bought from the farmers for a few cents each; and the use of an imitation of the brand upon the genuine bags, which is a trade mark of the Peruvian Government, are based upon a close analysis of bags of guano obtained from five out of the ten dealers in the city.

The Crops.

MEMPHIS, July 28.—The crop reports from Arkansas are encouraging. The rains of the past ten days have developed corn and cotton. Rain is needed in the region around Jacksonville.

The reports from Mississippi are conflicting in regard to cotton. There is not more than half a crop of corn on account of the drought. In the neighborhood of Oklaoma, Kosioku and Brandon, the cotton and corn will make a short yield on account of the drought and worms. The cotton prospect in west Tennessee is good, but corn only half a crop.

The Turf.

SPRINGFIELD, MASS., July 28.—Goldsmith's Maid, American Girl, Lucy Henry, Lulu and Judge Fullerton have been entered for the \$6,000 race at Hampden Park.

The Crops—July Agricultural Report.

WASHINGTON, July 28.—The July agricultural report has just been sent to the press. It represents an improvement in winter wheat, but a decline in the prospects of spring wheat on account of the unseasonable weather in some quarters and insect enemies in others. The average in corn is increased in West Virginia and Minnesota, and decreased in all the other States except Florida and Arkansas, where it remains the same as last year. Corn planting was everywhere retarded by the weather, and in many cases has been several times replanted. Unusual complaint of defective seed is made in all parts of the country.

The condition of cotton has been previously given. The indications up to July 1st, indicate a crop 95 per cent. of an average, not including injured where the culture is yet mainly experimental.

The prospective yield of oats declined during June in the New England, Middle and Northwestern States, except Wisconsin. It was enhanced in all of the Gulf States, except Mississippi.

Winter rye has improved in Rhode Island, Connecticut, New Jersey, Maryland, North Carolina, Mississippi, Texas, Arkansas, Ohio, Michigan, Illinois and Iowa. It remained stationary in Georgia, and declined in all the other States.

Spring rye was below average in all the States but five, the minimum 70 being found in California, and the maximum 110 in Nebraska.

Winter barley has generally declined in the south and west where heavy rains prevailed.

Grass crops generally in the New England and Middle States, however they were greatly shortened by drought.

The late winter told disastrously upon the fruit crop; the injury to apple trees was more extensive than was apparent at the last report. Great numbers of peach trees were killed. The condition of grapes ranged from 61 in California to 127 in Nebraska, 100 representing an average.

The average in potatoes remained the same as last year, or increased in 22 States and decreased in all the others.

The Colorado beetle has extended its ravages eastward, being reported for the first time in several counties of New York. It was still demonstrating in the west, but the farmers had learned in many counties how to destroy them effectually. The maximum condition of the crop of 111 was found in Georgia, the minimum 76 in Delaware.

The South Carolina Committee Interviews President Grant at Long Branch—Grant's Views.

LONG BRANCH, July 28.—General Kershaw, W. D. Porter and R. M. Sims, the committee of South Carolinians, had a conference with President Grant at Long Branch, the purpose of which was the intervention for Ku Klux prisoners of South Carolina. President Grant said he was in favor of pursuing a very liberal policy toward all convicts, except those guilty of violent crimes, and towards all except those charged, and probably guilty of similar crimes. It is understood that the President will address a letter of instruction immediately to Attorney General Williams in pursuance of these understandings.

From Washington.

WASHINGTON, July 28th.—There are five bidden for life saving stations between Cape Henlopen and Hatteras. They range from two to four thousand dollars.

A despatch from Governor Kellogg to Attorney General Williams, says they collected in June from the citizens of New Orleans alone, a million and one hundred thousand dollars. (Note.—Alas for New Orleans, and what interest has the Attorney General in the plunder?)

The Condition of Vice-President Wilson.

NEW YORK, July 28.—A Washington special dispatch says private advices confirm the worst that has been published regarding the condition of Vice President Wilson. His face is represented as somewhat distorted, and he has partly lost his power of speech.

Stage Robbed in California.

SAN FRANCISCO, July 28.—Yesterday the Colfax and Grose Valley stage was stopped by four men near Grose Valley, who blew open Wells, Fargo & Co's treasure box and decamped with \$8,000. None of the passengers were molested.

Lynch Law in Ohio.

CINCINNATI, July 28.—At Rogersville a man accused of outraging a little girl during the trial, the lights were extinguished and the prisoner knocked down and shot twice with a revolver and dragged two squares and hanged.

Weather Probabilities.

The Raleigh Daily News.

JORDAN STONE, Managing Editor.
SAML T. WILLIAMS, Political Editor.

TUESDAY, JULY 23, 1873.

THE ELECTION, AUGUST 7TH.

The election to be held in this State on the first Thursday in August, on the constitutional amendments, is one of vast importance to our people.

It involves vital changes in the organic law of the State.

For the information of voters, we publish on our fourth page, and shall keep standing until the day of election, the clauses in the Constitution proposed to be altered, together with the eight amendments that passed the Legislature by the requisite constitutional majority, and which are to be submitted to the people for approval or rejection, on Thursday, the seventh day of August next.

All the amendments proposed are necessary and important, and those who favor them should not fail to vote.

THE MANNER OF VOTING.

Constant inquiries are made of us concerning the manner of voting at the ensuing election in August.

For the information of voters, we have prepared the following instructions:

THERE MUST BE EIGHT BOXES.

There are eight amendments in all. As they are to be voted on separately, the poll-holders must have eight boxes for the ballots. Each box should be labeled with a written or printed form, specifying the particular amendment to be voted on in said box.

THERE SHOULD BE EIGHT LABELS.

The following are the eight forms which should be labeled on the eight boxes, respectively:

I. Amendment to the Constitution of North Carolina in relation to the Public Debt.

II. Amendment to the Constitution of North Carolina in relation to the office of Superintendent of Public Works.

III. Amendment to the Constitution of North Carolina in relation to the State Census.

IV. Amendment to the Constitution of North Carolina in relation to exemption from taxation.

V. Amendment to the Constitution of North Carolina in relation to the University.

VI. Amendment to the Constitution of North Carolina in relation to the sessions of the General Assembly.

VII. Amendment to the Constitution of North Carolina in relation to the Code Commissioners.

VIII. Amendment to the Constitution of North Carolina in relation to Federal and other officers holding office.

THE BALLOTS.

The ballots should be written or printed, either with the words "For Amendment" or the words "Against Amendment."

Persons voting for the amendments should use the former, while those voting against the amendments the latter.

THE POLLS.

Sheriffs must open the polls at the several election precincts in their respective counties on the seventh day of August, at eight o'clock in the morning and keep them open until seven o'clock in the afternoon.

WHO MAY VOTE.

Every person qualified to vote according to the Constitution may vote for or against each amendment.

RATIFICATION.

At the close of the polls, the judges of the election shall count out separately the number of votes cast for and against each amendment. After all the returns from each county have been officially counted, it will then be ascertained which of the amendments have been ratified, if any, and which rejected. The amendments which receive a majority of the popular vote of the State will be duly ratified and become then a part of the Constitution of North Carolina. A part or all of them may be either ratified or rejected.

BALTIMORE AND NORFOLK—A WARNING TO RALEIGH.

The destructive fires which have recently laid waste portions of Baltimore and Norfolk should serve as a warning to our citizens to put their houses in condition for a similar visitation.

When will our turn come?

Almost as surely as night follows the day, we may expect, before the lapse of many years, to witness the destruction of valuable property in our midst almost in the twinkling of an eye. That Raleigh has thus far escaped is due more to good fortune than the precautions that have been taken to ward off the calamity of a general conflagration.

True, we have four fire companies, two white and two colored, composed of able-bodied and efficient members, but the city has no water works, and for this reason our fire department labors under great and very embarrassing disadvantages. While the members of the several fire companies have shown on various occasions their readiness and faithfulness to discharge their duties, yet, without the aid of a supply of water, their services are likely in many instances to be utterly unavailing to check the progress of the flames when a large fire is once fully under way. Consequently we may wake up any morning and find the principal streets of Raleigh in ashes.

If nothing will be done to protect the city by the establishment of water works, the only thing left our house-owners is to insure their property in some reliable fire companies or provide themselves with the Babcock fire extinguishers.

STATE FAIR—VOORHEES COMING.

We have already announced through these columns that Hon. Daniel W. Voorhees, the gifted and eloquent Indian, has consented to deliver the annual address at our next State Fair, in October.

Mr. Voorhees has telegraphed to the Executive Committee of the State Agricultural Society that he will be present and speak on Friday, October 17th, of the Fair week.

We think the Executive Committee has made an excellent selection for orator for the year 1873. Mr. Voorhees has a national reputation as one of the most eloquent speakers in this country—and his reputation is no doubt well deserved.

His efforts in Congress on the most important measures that came up for discussion in that body during his membership, display rhetorical ability of the highest order, and those who have heard him speak are enthusiastic in their admiration of his captivating manner and faultless elocution.

He is best known in the South by two speeches made by him in the State of Virginia, on widely different occasions, one in defence of John E. Cook, "the fair-haired, bright-eyed boy," whom John Brown led into trouble at Harper's Ferry, just before the war, and the other delivered before the two literary societies at the University of Virginia in 1868, we believe. Both of these efforts made a marked impression on the Southern mind, and stamped Mr. Voorhees as an orator in the very first rank.

The indications now are that the next Fair will be the most creditable in many respects the State has ever had. The new location which was selected with an eye to the public convenience; the new and handsome buildings now in course of construction; the energy and zeal displayed by the Executive Committee; the untiring efforts of President Holt in the interest of the Fair, and the liberal donations that have been made by some of our citizens in aid of the Agricultural Society, give us strong reasons to hope that the exhibition in October will be a highly gratifying success.

In this connection, it is but an act of justice to the *Agricultural Journal* of this city to state that that paper has been largely instrumental in awakening public interest in behalf of the next Fair.

NO PARTY ISSUES.

No party issues are involved in the ensuing election.

Conservatives and Republicans voted together in favor of the eight amendments.

The changes proposed concern every tax-payer and every citizen of the State. All who are interested in the welfare of the State are called upon to cast their votes in favor of remedying the defects in the organic law of the State. Conservatives and Republicans are alike interested in having a wise and economical Constitution.

For once, the two parties in the State united together in the Legislature to remedy some of the defects which all acknowledge to exist under the present law.

Let the same spirit animate the voters on the seventh day of August next, and the amendments will be overwhelmingly ratified.

It will be a serious calamity to the State—to all its citizens without distinction of party—if the amendments are defeated through carelessness or indifference.

Let there be a full vote and a rousing majority for all the amendments.

THE EXCITEMENT IN NORFOLK ON SUNDAY.

Our Sunday's telegrams announce that numbers of the citizens of Norfolk were in a state of wild excitement on Sunday last in consequence of five different fires having broken out in that city between early Saturday morning and Sunday morning.

Market Square and Main Street were filled with an excited throng of citizens, who were impressed with the belief that the fires were the result of an organized plot to destroy the city, and great indignation was manifested.

The pecuniary losses sustained have not been considerable but the meagre particulars given by telegraph are so indefinite that it is impossible to estimate the amount of damages or the names of the sufferers.

CEASARISM.

A number of our exchanges are discussing the New York *Herald's* editorials on Caesarism. The discussion was started on the announcement made by Col. Mosby at the Exchange Hotel in Richmond, in a conversation with some newspaper reporters, to the effect that he, Mosby, would support Grant for President for the third term.

There is a practical way to nip such Caesarism in the bud. Let Congress pass by the requisite majority next Winter an amendment to the Constitution in favor of the one term principle. We believe the amendment will receive the sanction of the necessary number of States. This will not scotch but will kill the viper Caesarism.

The Tarboro *Enquirer* calls upon its readers to vote for the Constitutional amendments on Friday week. That will be one day too late to do any good. Our contemporary has the day of the month—August the 7th—right, but the day of the week is Thursday, not Friday.

Nearly \$50,000,000 are expended by the people of Alabama every year for corn, meat, hay, &c.

MARRIED.

SMITH—NALL.—In Tuskegee, Alabama, July 17th, 1873, by Rev. Robert Nall, D. D., Mr. J. M. SMITH, of Danville, Va., and Miss MATTIE, youngest daughter of the officiating clergyman.

Falboro claims to have 1,500 inhabitants.

Mr. Kenneth Ferguson died at Littleton on Saturday last.

Crops are said to be flourishing in Brunswick county.

A six foot alligator was recently killed at Morehead City.

There are now 72 orphans taken care of at the Asylum at Oxford.

The Fair of the Carolinas will begin on the 25th of November.

Portions of Iredell county are suffering from the effects of drought.

Enfield is progressing. A new carriage factory has been erected there.

Enfield is now competing for the possession of the most curious egg extant.

Another new steamer is to be put on the line between Newbern and Baltimore.

Mr. O. G. Parsley, Jr., of Wilmington, has purchased one of Lordlands steam yachts.

The Cornet band of Statesville have silver instruments and are very proud thereof.

Mr. James, local editor of the Wilmington Journal, is fast recovering from his recent illness.

Crops between Charlotte and Augusta, Ga., are reported to be in an excellent condition.

Gen. J. B. Gordon, of Ga., was in Charlotte on Friday on a visit to Col. William Johnston.

The work of building the steamer Raleigh to run between Wilmington and Baltimore, has been finished.

A colored military company has been formed in Wilmington by the name of the Wilmington Independent Grays.

The Battleboro picnic came off on Thursday. A large crowd participated and the affair passed off very pleasantly.

Col. John O. Wallace, one of the oldest citizens of Caraburus county, died on Thursday last of cerebro-spinal meningitis.

A kerosene lamp exploded in the American Hotel at Concord the other night, and the escape from a destructive conflagration was a narrow one.

In Wilmington, on Friday, a crazy colored boy took possession of the street cars and was having a high old time when overhauled by the police.

Wilmington is dissatisfied with the United States census and wants one on her own hook. The U. S. census puts the population of Salisbury down at 168.

Miss Legett, the young lady who was so severely injured last week at Whitaker's by being thrown out of a buggy, is rapidly recovering from her injuries.

Says the Charlotte Observer: "We learn that Mr. E. F. Morrison, Treasurer of the A. T. & O. R. R., under Col. Johnston's administration, has declined to turn over his books, papers, etc., to Col. S. A. Sharpe, who was elected Treasurer pro tem, by the new Board of Directors, with instructions to make a demand of Mr. Morrison for said books and papers. Mr. Morrison holds that the new Board is without authority to make such demand upon him."

A shower of strange reptiles.—A gentleman from Elk River, in Sherburne county, tells of a shower of reptiles which fell upon a meadow on the farm of Edward Upham, near that place, on the morning of the 3d inst., during a heavy rain and storm. The meadow, he says, was thickly strewn with the bodies of the strange creatures, none of which were discovered alive. They are described as about six inches long, having gills and fins like fish, but having also four legs each, about two inches long and terminating in claws, one person who saw them declared that like creatures exist only in the waters of Mexican lakes, from whence he supposed they might have been caught up in a water spout and been carried along by the wind until they were dropped on Mr. Upham's farm.

A Jersey jury returned the verdict, "Died by the visitation of God, cause unknown—probably hernia."

The farmers of Pittsylvania county, Va., have determined to organize farmers clubs in every township.

Louisa Keene denies that she has got the consumption and says she will appear again the coming season.

Col. R. E. Withers, of Virginia, is in New York.

The annual shower of frogs has occurred at Kansas City.

The Texas Democratic Convention meets at Austin Sept. 3rd.

OVEN BURSTER

Superior Family Flour, equal to the best, at reduced price.

R. F. JONES & CO.

July 1st

A sheep killing match recently took place in New York between two men named Fitzgerald and O'Keefe. The match was won by the former who killed and dressed 40 sheep in two hours and forty-three minutes.

Senator Alcorn has informed a Mississippi paper that he hasn't disengaged, and that he doesn't intend to.

A New Motive Power.

Mr. William Wells, of Salem, has just perfected an apparatus for running stationary or locomotive engines by vapor power, which, if it fulfills all that is expected of it, will entirely revolutionize the method of running engines of every description. The new apparatus was set up a few days ago, and on Saturday afternoon it was put into practical operation, for the first time, in the presence of several gentlemen well versed in machinery and the application of power. The working of the engine was entirely satisfactory, and all present expressed themselves as highly pleased with the success of the invention, which had before been considered by all but the designer as an experiment.

The whole apparatus is very simple in construction, and the new power can be applied to any engine. The whole peculiarity in construction is in the boiler; the engine being precisely like any other, and the vapor being conveyed to the cylinder of the engine just the same as steam. The boiler is an upright one, and is really a double boiler; that is, it has two heads at each end, one a few inches from the other. The two chambers thus formed, one at each end of the boiler, are filled with water, and are connected by tubes, which are for the circulation of the water between the two chambers. The second or inner boiler, that between the two inner heads, is filled with a preparation of bisulphide of carbon, the vapor from which is the motive power taking the place of steam. Beneath the boiler is a small firebox, from which flues run up through the two boilers to the smokepipe. These flues pass inside of the tubes already mentioned, and the fire, in passing through, heats the chemicals. By this arrangement it will be seen that the bisulphide in the inner boiler receives the requisite amount of heat without coming in direct contact with the fire flues, as the water is kept in circulation through the tubes.

TYRANNY IN GERMANY.—The press of Germany under the Bismark regime is in a sorry plight, which is only tolerable in view of the hoped-for early going out of power of that celebrated man. The position of the responsible editor of a Prussian newspaper has become so dangerous that some ignorant and hardy fellow, to whom imperial bread and water would be no great privation, is paid to act as a dummy and stand the penalties. The Deutsche Freie Zeitung of Berlin has announced that its responsible director is licensed street porter No. 107. No. 107, while acting as responsible editor of Freie Zeitung, continues his occupation of carrying boxes and messages, unless when interrupted by a summons to court.

The Supreme Court of Illinois has decided that a fire insurance company has not the right to cancel a policy when fire is approaching the insured property, or when danger of destruction is pending. The case arose under the cancellation of a policy on cord-wood while forest fires were burning in the neighborhood.

A private letter received from San Antonio, says: "The feeling on the other side of the Rio Grande against the Americans is said by those who have lately returned thence to be one of bitter hatred, and a desire for revenge for the insult offered by MacKenzie pervades certain classes."

The attempts to pack the next Ohio Legislature so as to send Secretary Delano to the United States Senate are vigorously denounced by the Cincinnati Gazette (Adm.)

The Norfolk Journal has firm faith that Hon. John Goode will receive the Democratic nomination for Governor of Virginia.

The National Temperance Convention meets in Saratoga, N. Y., on the 26th prox.

A stock raiser near Austin, Texas, recently sold 134 head of cattle at \$150 a head.

George Luat, it is rumored, is to be the editor of a new comic paper in Boston.

Victor Emmanuel, it is reported, is to be excommunicated by the next ency clical of the Pope.

A handsome small pox hospital has been added to the architectural attractions of Chicago.

A negro boy named Harry Morse was drowned in Gillie's creek, near Richmond, Va., on Friday.

It is said that this country consumes about one-fourth of all the silk goods manufactured in Europe.

A Jersey jury returned the verdict, "Died by the visitation of God, cause unknown—probably hernia."

The farmers of Pittsylvania county, Va., have determined to organize farmers clubs in every township.

Louisa Keene denies that she has got the consumption and says she will appear again the coming season.

Col. R. E. Withers, of Virginia, is in New York.

The annual shower of frogs has occurred at Kansas City.

The Texas Democratic Convention meets at Austin Sept. 3rd.

PROPOSALS.

PROPOSALS FOR WOOD & COAL.

OFFICE OF SECRETARY OF STATE, Raleigh, N. C., July 28, 1873.

SEALED PROPOSALS, in triplicate, with a copy of this advertisement annexed to each, are invited and will be received at this office until 12 o'clock, M., on Friday, August 1st, 1873, for furnishing fuel for the General Assembly and the several Executive officers of the State, to-wit:

25 Tons of Merchandise hard Wood.

25 Tons of Hard Coal.

The quantities to be more or less as may be required, and to be delivered at the Capitol yard at such times as the undersigned may direct, and subject to inspection.

Bids to be made separately for Coal and Wood, and each accompanied by bond and security for the delivery of the article mentioned, the bond upon bids for Wood to be \$500, and the bond for Coal to be \$300.

The bonds of successful bidders will be required to be presented at the opening of their bids.

Envelopes to be indorsed "Proposals for Wood" or "Coal," and addressed to the undersigned, WM. H. HOWARD, Secretary of State.

July 28th 1873.

PROPOSALS FOR EXCAVATIONS FOR THE UNITED STATES COURT HOUSE AND POSTOFFICE, AT RALEIGH, N. C.

OFFICE OF SUPERINTENDENT, U. S. COURT HOUSE & POSTOFFICE, Raleigh, N. C., July 28, 1873.

Sealed proposals will be received at this office until 12 m. of the 9th day of August, 1873, for excavating and grading, including the removal of earth, for the basement story, areas, trench, foundation, etc., of the United States Court House and Postoffice at Raleigh, N. C.

The dimensions and depth of the excavations can be obtained on application at this office.

Proposals will be made by the cubic yard, which must include the foundation trenches.

The whole excavation must be completed within six weeks from date of acceptance of the contract.

All bids must be made on the printed forms to be obtained at this office, and must be accompanied by a cash bond in the sum of One Thousand (\$1000) Dollars that the bidder will accept and perform the contract in accordance with the specifications, or all bids are reserved.

Payments will be made monthly, deducting ten per cent. until the completion of the contract.

Proposals must be enclosed in a sealed envelope indorsed "Proposals for Excavations for the United States Court House and Postoffice, Raleigh, N. C.," and addressed to S. T. CARROW, Superintendent.

July 28th 1873.

Variety. For making

Backsack Cakes

it has no rival.

Those who have tried it, say it is decidedly the VERY BEST. Feeling considerably

dissatisfied at the increasing demand where put in competition to so many kinds now on the market, that I shall in future manufacture it on a much greater scale.

It is the only Baking Powder manufactured in the South, and I guarantee it to give as much satisfaction as any other.

Manufactured by

SCHOOL BOOKS.

Thinking customers for past favors, I shall be pleased to supply

THE CONSTITUTIONAL AMENDMENTS.

In order that the people may vote understandingly on the amendments to the Constitution, at the ensuing election, we deem it necessary to give in full the eight clauses in that instrument proposed to be altered, together with the alterations themselves.

FIRST: IN RELATION TO THE PUBLIC DEBT.

The present Constitution in Article I, Declaration of Rights, provides as follows:

"Sec. 6. To maintain the honor and good faith of the State untarnished, the public debt, regularly contracted before and since the rebellion, shall be regarded as inviolable and never be questioned; but the State shall never assume or pay, or authorize the collection of any debt or obligation, express or implied, incurred in aid of insurrection, or rebellion against the United States, or any claim for the loss or emancipation of any slave."

This section is amended by striking out the first clause down to and including the word "but," so that the amended clause in Article I will then read:

"Sec. 6. The State shall never assume or pay, or authorize the collection of any debt or obligation, express or implied, incurred in aid of insurrection, or rebellion against the United States, or any claim for the loss or emancipation of any slave."

Another alteration in regard to the public debt is provided for in the same amendment, by striking out section 4, Article V of the present Constitution, which is as follows:

"Sec. 4. The General Assembly shall, by appropriate legislation and by adequate taxation, provide for the prompt and regular payment of the interest on the public debt, and after the year 1880, it shall lay a specific annual tax upon the real and personal property of the State, and the sum thus realized shall be set apart as a sinking fund, to be devoted to the payment of the public debt."

So that the above section will be entirely stricken out and the amended Constitution will not make it compulsory on the Legislature, by express language, to provide for the payment of interest and principal of the public debt.

SECOND: IN RELATION TO THE OFFICE OF SUPERINTENDENT OF PUBLIC WORKS.

Article III, section 1, of the present Constitution names among the other officers of which the Executive Department shall be composed, a Superintendent of Public Works, who shall be elected for a term of four years by the qualified voters of the State, at the same time and place, and in the same manner as members of the General Assembly.

The amendment proposes to strike out the words "Superintendent of Public Works" wherever they occur in the Constitution, thus abolishing that office.

THIRD: IN RELATION TO THE STATE CENSUS.

In the present Constitution, Article II, the following provision is made for taking a State Census:

"Sec. 5. An enumeration of the inhabitants of the State shall be taken under the direction of the General Assembly in the year one thousand eight hundred and seventy-five, and at the end of every ten years thereafter; and the said Senate Districts shall be so altered by the General Assembly, after the first session after the return of every enumeration taken as aforesaid, or by order of Congress, that each Senate District shall contain, as nearly as may be, an equal number of inhabitants, excluding aliens and Indians not taxed, and shall remain unaltered until the return of another enumeration, and shall at all times consist of contiguous territory; and no county shall be divided in the formation of a Senate District, unless such county shall be equitably entitled to two or more Senators."

The amendment proposed to this Article is to strike out all that precedes the words, "the said Senate Districts," in section 5, and to strike out the phrase "as aforesaid, or," the parts so stricken out relating to the census, so that the section as amended will read:

"Sec. 5. The said Senate Districts shall be so altered by the General Assembly at the first session after the return of every enumeration taken by order of Congress, that each Senate District shall contain, as nearly as may be, an equal number of inhabitants, excluding aliens and Indians not taxed, and shall remain unaltered until the return of another enumeration, and shall at all times consist of contiguous territory; and no county shall be divided in the formation of a Senate District, unless such county shall be equitably entitled to two or more Senators."

The object of this amendment is to do away with the unnecessary expense of taking a State census under the direction of the General Assembly, inasmuch as the same work is done by the national Government.

FOURTH: IN RELATION TO EXEMPTIONS FROM TAXATION.

The present Constitution, Article V, Revenue and Taxation, provides as follows:

"Sec. 6. Property belonging to the State or to municipal corporations, shall be exempt from taxation. The General Assembly may exempt cemeteries, and property held for educational, scientific, literary, charitable or religious purposes; also wearing apparel, arms for muster, household and kitchen furniture, the mechanical and agricultural implements for mechanics and farmers, libraries and scientific instruments, to a value not exceeding three hundred dollars."

The amendment proposes to change this section by inserting after the word "instruments," the words "or any other

personal property," so that the section as amended will read:

"Sec. 6. Property belonging to the State, or to municipal corporations shall be exempt from taxation. The General Assembly may exempt cemeteries, and property held for educational, scientific, literary, charitable or religious purposes; also wearing apparel, arms for muster, household and kitchen furniture, the mechanical and agricultural implements of mechanics and farmers, libraries and scientific instruments or any other personal property, to a value not exceeding three hundred dollars."

FIFTH: IN RELATION TO THE UNIVERSITY.

The present Constitution, Article IX, has the following on the subject of the University at Chapel Hill:

"Sec. 5. The University of North Carolina, with its lands, emoluments and franchises, is under the control of the State, and shall be held to an inseparable connection with the free public school system of the State."

The amendment proposes to strike out this section entirely, thus severing the University from the common school system, and insert the following in lieu thereof, so that the amended Constitution shall read:

"Sec. 5. The General Assembly shall have power to provide for the election of trustees of the University of North Carolina, in whom when chosen shall be vested all the privileges, rights, franchises and endowments heretofore in anywise granted to or conferred upon the trustees of said University; and the General Assembly may make such provisions, laws and regulations, from time to time as may be necessary and expedient for the maintenance and management of said University."

The following sections of Article IX, relating to the University, are also stricken out:

Sections 13, 14 and 15, relating to the appointment of trustees by the Board of Education, and the officers powers and rights of the trustees. These matters will hereafter devolve on the Legislature, if the amendment relating to the University is ratified.

SIXTH: IN RELATION TO THE SESSIONS OF THE GENERAL ASSEMBLY.

The present Constitution, Article II, Legislative Department, provides as follows:

"Sec. 2. The Senate and House of Representatives shall meet annually on the third Monday in November, and when assembled shall be denominated the General Assembly."

This section is to be amended by striking out the word "annually," and inserting in lieu thereof the word "biennially," so that the section amended shall read:

"Sec. 2. The Senate and House of Representatives shall meet biennially on the third Monday in November, and when assembled shall be denominated the General Assembly."

This amendment also strikes out the word "annually" in section 6, Article III, and inserts the word "biennially," in reference to the requirement of the Governor to communicate to the General Assembly each case of reprieve, commutation or pardon.

SEVENTH: IN RELATION TO THE CODE COMMISSION.

The present Constitution, Article IV, Judicial Department, makes the following provisions concerning the Code Commissioners:

"Sec. 2. Three Commissioners shall be appointed by this Convention to report to the General Assembly at its first session after this Constitution shall be adopted by the people, rules of practice and procedure in accordance with the provisions of the foregoing section, and the Convention shall provide for the Commissioners a reasonable compensation."

Sec. 3. The same Commissioners shall also report to the General Assembly as soon as practicable, a code of law of North Carolina. The Governor shall have power to fill all vacancies occurring in this commission."

The amendment proposes to strike out both these sections, thus abolishing the Code Commission.

EIGHTH: IN RELATION TO FEDERAL AND OTHER OFFICE-HOLDERS.

The present Constitution, Article XIV, provides as follows:

"Sec. 7. No person shall hold more than one lucrative office under the State at the same time. Provided, That officers in the Militia, Justices of the Peace, Commissioners of Public Charities and Commissioners appointed for special purposes, shall not be considered officers within the meaning of this section."

The amendment proposes that this section shall read as follows:

"Sec. 7. No person who shall hold any office or place of trust or profit under the United States, or any department thereof, or under this State or any other State or Government, shall hold or exercise any other office or place of trust or profit, under the authority of this State, or be eligible to a seat in either House of the General Assembly: Provided, That nothing herein contained shall extend to officers in the Militia, Justices of the Peace, Commissioners of Public Charities or Commissioners for special purposes."

There were eighteen amendments originally proposed, but the eight above specified were all that passed the General Assembly by the requisite two-thirds majority.

These eight amendments are to be submitted separately for ratification or rejection, at the election to be held on Thursday, the seventh day of August. Any person qualified to vote may vote for or against each amendment, with a written or printed ticket with the words "For Amendment" or "Against Amendment." The amendments that receive a majority of the popular vote will be duly ratified. A part or all of them may be either ratified or rejected.

Dooley's Yeast Powder cannot be excelled for making light, sweet Buns, Biscuits, Waffles, Corn Bread, &c. It is always ready and reliable.

FEATURES AND ADVANTAGES.
It is emphatically a Home Company. Its large capital guarantees strength and safety. Its rates are as low as those of any first-class company. It offers all desirable forms of insurance. Its funds are invested at home and circulated among our own people. No unnecessary restrictions imposed upon residence or travel. Policies non-forfeitable after two years. Its officers and directors are prominent and well-known North Carolinians, whose experience as business men, and whose worth and integrity are alone sufficient guarantees of the Company's strength, solvency and success.
